Source: Behavioral Risk Factor Surveillance System

Percentage of respondents who have ever been told by a doctor or other healthcare provider that they have a depressive disorder or an anxiety who also have been told that they have diabetes, asthma, or high blood pressure.

% = Weighted percentage of respondents

LCL= Lower 95% confidence level of the weighted percentage

UCL= Upper 95% confidence level of the weighted percentage

All percentages are weighted to be more representative of the population of Maine and to adjust for non-response.

NSD: Non-sufficient data. Data is not available due to small or zero counts.

DNR: Data not reliable. Data is suppressed if confidence intervals are greater than 20 percentage points.
